2 42 registered for free life-saving course in Hermon starting March 4

Sat Mar 1, 2014 9:40 pm (PST) . Posted by: [asncaalert](#)

There's still time to sign up for LAFD's Community Emergency Response Team (CERT) training in Hermon starting March 4th. Learn how to save yourself, your family and your neighbors after a major emergency such as an earthquake or fire. Take it again as a refresher or for the very first time!

To register for this free CERT training, email marklegassie@gmail.com or call 323-895-6275.

After graduating from this important city-sponsored 17.5 hour training program, we would love for you to keep your skills honed by joining one of the local CERT teams near your home such as Hermon CERT, El Sereno CERT, Mt. Washington CERT, Monterey Hills CERT, Montecito Hgts CERT, etc.

This year Hermon CERT plans to work with nearby neighborhoods to conduct a grassroots neighbor search & rescue drill as well as to develop our detailed Hermon Community Emergency Plan which we will test at the Great California Shake-Out state-wide drill in October!

4 **[LAFD] LAFD Handles Multiple Swift-Water-Rescues in One Day**

Sat Mar 1, 2014 9:40 pm (PST) . Posted by: [asncaalert](#)

Dear Friend of the LAFD,
Please refer to: <http://lafd.blogspot.com/2014/03/lafd-handles-multiple-swift-water.html> for updated

information and video...

CYPRESS PARK – Los Angeles Firefighters rescued two men and two dogs stranded in the LA River as a storm hammered Southern California Friday morning, February 28, 2014.

Due to severe overnight weather, local flood control channels are swelled with storm-water, causing the Los Angeles Fire Department to remain in a "River Rescue" preparedness status.

At 9:10 AM a man called 9-1-1 stating he saw two people in the LA River holding on to a tree. Firefighters arrived to the 1500 block of San Fernando Road in Cypress Park where they found two adult males, 48 & 49 years old, along with two pit bull dogs stranded. They were holding onto a fallen tree in waist deep cold water that was moving approximately 15 mph. The men appeared to be homeless and live in the area of the rescue site.

Two LAFD helicopters responded, one with hoist capabilities and another for observation, however due to power-lines over the rescue site a hoist operation proved too dangerous. A specialized team of technical swift water rescue firefighters then entered the river, rapidly set up a technical rescue operation with rope systems, and provided the victims life vests and helmets. Multiple other rescue sites were strategically prepared in the event the victims floated downstream. In an effort to assist in the rescue, the victims held tight to their large aggressive dogs while firefighters saved them. The men and dogs were then placed into an inflatable rescue boat and safely brought ashore at approximately 10:15 AM. Once extracted to safety, both patients were medically evaluated by Firefighter Paramedics that were standing by. The men declined transport to the hospital. Dispatched Units: E44 E17 E14 RA14 T21 E25 E202 T2 DC1 SW44 HR56 SW86 EM1 BC1 E10 E3 BC731 UR88 H2 H4 UR88 BC2 RA1 RA56 E201 T1 RH114 E203 T3.

INDUSTRIAL EASTSIDE - Then at 1:03 PM the LAFD performed another rescue at the LA River. An adult male entered the LA River near 6th Street, for unknown reasons, and dangerously floated downstream until he was able to latch on to the slippery east concrete wall near the Olympic Street bridge. Exhausted, and barely able to move, he waited. Skilled firefighters rushed in, used rope systems and lowered themselves down the steep wall and carried him to safety. He was rapidly treated and transported to a local hospital. Dispatched Units: E17 E14 E9 T9 RA9 T21 E25 DC1 SW44 HR56 SW86 EM1 BC1 E10 E3 SC1 H2 H4 BC11 RH114 E202 T2 E4 E203 T3.

RESEDA - Finally at 2:13 PM local police notified the LAFD of a male in the LA River near Wilbur Avenue. After floating downstream, the 45 year-old man was able to grasp hold of metal rungs on the vertical walls and climb out. He was evaluated by Firefighter Paramedics and transported to a local hospital. Dispatched Units: E88 T88 E288 SW88 DC3 RA88 T73 E273 E100 E239 E39 T39 E109 H0C H0E SW86 HR56 EM10 BC10 E102 UR88 E293 T93 H4 H5 E83 BC14 BC731 SC1

Thanks to all the skilled firefighters involved and due to their continual training, these incidents had a successful outcomes.

The LAFD wishes to remind citizens that when rainstorms impact the Los Angeles area, flood control channels, rivers, and arroyos can quickly fill with fast-moving water, creating a potentially life-threatening situation to anyone who gets caught or swept away. Please stay away from these dangerous areas.

By EGP Staff Report

A two-week, district-wide celebration of the arts will get underway Saturday at Eagle Rock High School, the Los Angeles Unified School District has announced.

LAUSD Arts Fest 2014, the first of its kind in the school district, will showcase student art across a variety of platforms, including music, dance, film, theater and visual arts, according to LAUSD.

Arts Fest runs from March 1 to March 14 as part of Arts Education Month "to raise awareness about the importance of arts education" and to raise funds to support school-based and district-wide arts program, according to LAUSD's announcement.

Arts Fest is the brainchild of Hamilton High School student Jordyn Sacino who responded to a LAUSD's "My Bright Idea" Challenge by proposing, "Why not use art to save art." Sancino.

The first of several events takes place this Saturday, March 1 at Eagle Rock High School (1750

Yosemite Dr. LA). The 3rd Annual East Side Arts Festival runs from 9 a.m. to 3 p.m., and will feature numerous performances, student films and art workshops.

Arts Fest's grand finale takes place March 15 at LA County's Grand Park in Downtown Los Angeles. More than 2,000 students are scheduled to perform throughout the day. Program includes live student performances; artist market; screening of student short films; creativity zone; a mass performance to Pete Seeger's "Turn, Turn, Turn"; vendor booths, celebrities, food trucks and giveaways.

Other local schools holding events prior to the finale include:

—Esteban Torres High School's "2014 Choreographer's Showcase," featuring the East LA Performing Arts Academy Dance Company and Torres High Dance Team, on Thursday, March 6 at 6 p.m. in the school auditorium: 4211 Dozier ST., L.A. Admission is \$1.

—Florence Nightingale Middle School's "5th Annual Talent Showcase" on March 13, from 3 to 4p.m. School's address is 3311 N. Figueroa St. in Cypress Park. Admission is \$3.

3:00-4:30 PM, School Auditorium

— Sotomayor School of History and Dramatic Arts "Coffee House" Talent Showcase On March 13, 4-6p.m., in the Multipurpose Room: 2050 San Fernando Rd, LA. Admission is \$4.

For more information and a complete list of Arts Fest sites, go to artsfest.lausd.net.

Rain. Lighting. Thunder. Hail. It has rained heavily across the Eastside for most of the afternoon, but it appears that Eagle Rock got hit with more than it's fair share of wild weather judging by the photos and tweets spreading across social media. Here's a sample:

Councilmember Huizar to Lead City in Declaring Complete Streets Day

Wednesday, March 5

10:00AM

Los Angeles City Hall, City Council Chambers, 3rd Floor

200 N. Spring St.

Los Angeles, CA 90012

Please join us as the City of Los Angeles will officially designate Wednesday, March 5, 2014, Complete Streets Day in the City of Los Angeles. The resolution, presented by Councilmember José Huizar, will be heard and voted on by the Los Angeles City Council and aims to bring focus and awareness to the ground-breaking policy approach, which advocates for increased pedestrian, bicycle and multi-modal transportation use.

Councilmember Huizar will be joined by leaders from Los Angeles' Complete Streets initiatives, including many that ushered in pilot programs with Councilmember Huizar in Council District 14.

Council District 14 has actively participated in and supported the implementation of Complete Streets projects, including road diets, buffered bike lanes, Rapid Rectangular Flashing Beacon crosswalks, pocket parks, art installations, the City's first Bike Corral, Parklets and Green Bike Lanes.

All of these improvements supporting community building and promoting local businesses on First Street in Boyle Heights, Huntington Drive in El Sereno, York Boulevard in Highland Park, Colorado Boulevard in Eagle Rock and Spring Street and Broadway in Downtown Los Angeles.

Great Streets in CD14

In a letter to the Mayor this week, Councilman Huizar advocated for the numerous streets in the district that he has nominated for the "Great Streets" initiative. Throughout CD14 we have many examples of complete streets improvements that CD14 has pioneered and that deserve to be replicated Citywide. These improvements include road diets, bicycle facilities and parklets, easier permitting for sidewalk dining, and pedestrian safety improvements.

Other streets in the district would greatly benefit from additional resources in order to reach their full potential.

"I know that we agree that a great street makes accommodations for multiple modes of transit," wrote Councilmember Huizar. "It connects neighbors rather than divides neighborhoods and provides opportunities for commerce, social interaction and community building."

Among the streets nominated by Councilmember Huizar are Colorado Blvd., Eagle Rock Blvd., Figueroa St., Verdugo Rd., & York Blvd. in Northeast LA.

LOS ANGELES (CNS) - Firefighters on Friday rescued two people and two dogs from an island of shrubbery in the middle of the rain-swollen Los Angeles

River near Cypress Park.

Rescuers were sent at 9:10 a.m. to the river near the 1500 block of Elm Street, Los Angeles police Officer Rosario Herrera said.

The rescue was accomplished in about an hour, and no injuries were reported, according to the Los Angeles Fire Department.

ASNC Candidate Filing Period Ends Soon!

Twenty-one positions to be voted on April 26

HURRY! Deadline March 12. Candidate guidelines and documentation requirements.

Consider....

What if Caltrans decided to pave over the Arroyo Seco River to widen the Parkway?

What if the Southwest Museum was to be demolished to make way for a casino?

What if Flat Top was acquired by Six Flags for a Roller Coast Park?

WHAT COULD YOU DO TO STOP IT?

Sign up for an ASNC Ballot

This time around you may cast your vote from the comfort of home and mail it back or simply drop it off on Election Day April 26 at Ramona Hall. Download the ballot application! Go to <http://bit.ly/1aTK05W> for the PDF file.

The City of Los Angeles Fire Department, in collaboration with Councilman Gil Cedillo Council District 1 and the Arroyo Seco Neighborhood Council Public Safety Committee is proud to present this valuable training to the public. The City of Los Angeles Fire Department's Community Emergency Response Team (CERT) program was developed to provide basic training in safety and life--saving skills to the general public. Following a major disaster, police, fire and medical professionals may not be able to fully meet the demand of helping all those in need. People will need to rely on each other to meet the immediate lifesaving and life sustaining needs, particularly if main roads are obstructed or inaccessible. The training course will be presented as a series of SEVEN* classes and will include topics such as disaster preparedness, Terrorism awareness, light search and rescue, fire suppression and disaster medical training. To enroll and reserve your spot or for questions, contact: Roy Payan repayan@sbcglobal.net or Sylvia Robledo sylvia.robledo@lacity.org at 323--550--1538

11 Wonder What the Storm is Like in the Mountains?

Sat Mar 1, 2014 10:35 pm (PST) . Posted by: [asncaalert](#)

March 1, 2014 -- Yesterday's storm was intense throughout our region, but nowhere more than in the Arroyo Seco in the San Gabriel Mountains. Look at how the streamflow soared!

The US Geologic Survey maintains a stream gauge in the Arroyo above Hahamongna. For the last year the streamflow at the gauge has been hovering below 1 cubic foot per second (cfs), an extremely dry condition. (Normal would be about 8 cfs.) But yesterday morning when the storm began, the flow quickly rose from below 1 cfs to 469 cfs by 10:00 am. In the afternoon the flow slackened, but the evening squall sent the gauge soaring to 677 cfs at 10:00 pm. (The USGS chart uses a log scale in which each interval increases tenfold, so the increase in flow is even sharper than it appears.)

As the storm has receded, the streamflow has slowed down as well. At 1:15 pm today the gauge records 86 cfs.

You don't want to be in the mountains during a storm like this, but you can monitor the storm at the USGS website or receive the latest data by text message or email:

☐ Text 11098000 to WaterNow@usgs.gov

☐ Send email to WaterNow@usgs.gov, with Subject: 11098000
